

SOCIALISTS FACE CRISIS IN STATE OF NEW YORK

Assembly Sitting As Court of Last Appeal On Status.

DECISION BY BALLOT

Ousting of Socialist Members Decided On Wednesday.

Albany, N. Y., March 31.—Sitting as a court of last review from whose decision there is no equal, the New York assembly started in today to settle once and for all the status of socialism in this state.

The entire assembly of 145 members is prepared to decide by ballot whether five of its socialist members are fit to sit in the councils of the state or whether they are "perpetual traitors" to their country, as charged by the majority of the judiciary committee which conducted a three months investigation of them.

Upon the assembly's decision hangs the fate of the socialist party in New York. If the assembly votes to unseat the five socialist then the socialist party becomes outlawed at the polls and is denied the privilege of being a party in the state.

If the assembly decides to give the five their seats, then the socialist party is exonerated on the charge of being a "traitorous body" and can place its candidates on the voting lists just the same as the Republican party or the Democrat party.

It is not likely that a vote can be reached today. When the assembly met the majority report of the judiciary committee—recommending the outlawing of the socialist party—came up as a special order of business and the debate on its promised to be lengthy.

The general opinion was that the socialists would be barried by a small majority. An informal poll of the assembly was said to have shown ninety of the 145 members in favor of "kicking them out."

GERMANS BEGIN DRIVE TO RECAPTURE THEIR LOST TRADE

Washington, March 31.—German firms have begun a determined drive to recapture trade lost during the war.

Treasury officials in advices from abroad, were advised that German concerns have resumed their pre-war methods of thoroughness, in offering to supply goods to consumers in neighboring countries at lower prices than other European competitors.

The Germans have sent thousands of commercial travelers into the areas where they formerly were at war, offering most liberal inducements to capture trade. The Germans have as their selling point, "quicker delivery and long terms of credit to meet any local requirements."

TIME LIMIT ON AUTO LICENSES IS EXTENDED

Because of the delay in getting the automobile licenses on the market, the time limit for securing the license on the market, the time limit for securing the license plates has been extended to April 10, according to a letter received by Chief of Police Canaday from A. G. Snow, registrar of automobile.

There has been a shortage of steel according to the letter and the license factory has been unable to deliver the plates promptly enough, with the result that the work of supplying 500,000 automobile owners has been delayed. For this reason police are asked to take no action arresting car owners without licenses until after April 10. This will give car owners in Greene county the opportunity to secure their licenses which were received here by the official distributors, the Xenia Shoe and Rubber store, late.

The letter reads "The Secretary of State, Harvey C. Smith, is desirous of protecting the automobile public, who are acting in good faith, from being fined for operating their cars without 1920 license plates, provided they have made application and paid the fee."

"On account of shortage in steel, the factory has been unable to deliver a sufficient number of plates to the Automobile department for equipping all cars and trucks by April 1."

"You are again appealed to for help in taking care of the situation. It is especially requested that the time limit be extended to April 10, before making any arrests for such violations. The work of licensing 500,000 cars under the graduated horse power rating has been a tremendous task. This department is not at fault, neither are the people. Please help both to the fullest of your ability. Your services in the past have been greatly appreciated. Will you kindly continue?"

These requests will be carried out by Chief Michael Graham, who will assume the head of the local police department Thursday.

GENERAL STRIKE THREATENED IF FEDERALS MOVE

Berlin, Mar. 31.—Organized labor has united with three factions of the socialist party in warning the government that another general strike will be proclaimed if the reichswehr (government forces), are sent into the Ruhr district against the Spartacists. Government officials expressed confidence that order could be restored in the Ruhr district within three weeks, the time allotted by France for German government action without interference from French troops.

MEAT SHORTAGE FACES COUNTRY AS MEN STRIKE

Serious Situation Predicted Unless Strike Is Settled.

Chicago, Mar. 31.—Unless two federal labor mediators now on their way here from Washington succeed in settling the strike of livestock handlers, there will be a meat shortage all over the country, it was declared by an official of a leading packing concern here today.

"There is bound to be a shortage, amounting almost to a famine, all over the country if the strike continues," he said. "Prices, according to him, are bound to soar."

Already the falling off of livestock receipts in Chicago, due to the freight embargo caused by the strike, has caused a rise in meat prices, and this is expected to increase daily. A situation even more serious was threatened today when labor officials declared packing house workers throughout the country would be called out on a sympathetic strike if the demands of the livestock handlers are not met.

Five thousand more packing plant workers were laid off this morning because of the strike, making a total of 15,000 yard workers now out of jobs.

PUBLISHER IS TO GIVE ADDRESS HERE

George V. Sheridan, publisher of the Springfield Morning Sun and formerly Secretary of the Ohio State Medical Association and in charge of the official organ of that body will speak before the Greene County Medical Association at the regular meeting Thursday.

The subject of Mr. Sheridan's address will be "State Health Insurance." The meeting will be held in the Chamber of Commerce rooms and will commence at 10 o'clock in the morning instead of 11 o'clock as is usual.

About forty doctors are expected to be present.

WILL NOT CALL SPECIAL SESSION OF LEGISLATURE

Hartford, Conn., March 31.—Governor Holcomb has definitely decided that he will not call a special session of the legislature to act on the suffrage amendment. Major John Buckley, his executive secretary said today. Governor Holcomb will not send a formal reply to the members of the men's Republican suffrage committee who presented to him yesterday a copy of the resolution adopted by the state Republican convention, according to Major Buckley. The governor taking the stand that no reply is necessary since his decision is unchanged.

Will Lift Government Restrictions Wednesday Night.

WAGE INCREASE CAUSE

Coal Operators Deny Arbitrary Raise In Prices.

Washington, March 31.—Soaring prices are expected to follow the lifting of government restrictions on coal prices tonight.

Within a few days coal prices will reach level nearly equal to that of 1917, when prices were placed under the regulation of the fuel administration, according to those here who are in close touch with the coal trade.

The 27 per cent wage increase to the bituminous miners becomes effective tomorrow and this fact coupled with the lifting of restrictions on prices is expected to advance bituminous coal prices from fifty cents to \$2 a ton. Representatives of coal operators denied there would be any effort arbitrarily to increase prices and predicted that prices which may increase now will fall back during the summer months when there is less buying.

"There will be an increase in prices," said George H. Cushing, secretary of the American Wholesale Coal Association, "but the sum of money that goes into the pocket of the producer and wholesaler will not be greater than it has been before. The increase will go into the pocket of the miner under the higher wages that will be paid to him this year."

The government's sole control of the coal market after tonight will be through restrictions upon exportation of coal, and it was declared here today that this control was sufficient to prevent a runaway market during the summer.

There is bound to be a shortage, amounting almost to a famine, all over the country if the strike continues," he said. "Prices, according to him, are bound to soar."

Already the falling off of livestock receipts in Chicago, due to the freight embargo caused by the strike, has caused a rise in meat prices, and this is expected to increase daily. TURK REVOLT FAILS IN THRACE REPORTS NEWS DISPATCH

London, Mar. 31.—The Turkish nationalist revolt in Thrace has failed, according to a Constantinople dispatch to the Daily Express today. Less than four thousand are said to have joined the movement while revolutionary emissaries who tried to stir up trouble in the villages were stoned.

Anatolia is reported to have been cut off from the rest of Turkey by the nationalists operating in that quarter. They are boycotting allied goods and Christian merchants. Thrace is the seat of Turkey lying in Europe. Its sovereignty was awarded to Greece by the supreme council of the peace conference.

WILLIAM F. DRAKE DIES WEDNESDAY

William F. Drake, aged 71 years, a resident of Yellow Springs for many years and a contractor and builder, died at 3 o'clock Wednesday morning after one week's illness of intestinal indigestion and heart trouble. A native of Clark county, Mr. Drake had lived most of his life in or near Yellow Springs. He is survived by his widow and three children Carl and Earl of Yellow Springs, and Mrs. H. C. Hubble, of Cincinnati.

He was a member of the Methodist Episcopal church. Funeral services will be held at the home Friday at two o'clock.

REPEAL MEASURE ON DAYLIGHT SAVING FAILS

Albany, N. Y., March 31.—The Fowler bill, designed to repeal the daylight saving law, failed of passage in the Assembly. The vote was 75 to 64, one less than required. The same bill had been adopted in the Senate by a 26 to 25 vote.

It required almost an hour for the roll call. Assemblymen Rowe, of Buffalo, and Pellet, of New York, changed from the negative to the affirmative, giving to the bill the constitutional majority, but Assemblyman Evans, who had voted for the bill, changed to the negative, saying he "resented the bargaining and dealing going on over this bill in this chamber."

The Fowler bill was the second of its kind to fail of passage in the Assembly. The Betts bill suffered a similar fate, lacking six votes of a constitutional majority last week.

SUFFRAGE WILL PROBABLY PASS IN DELAWARE

Leaders of Antis Reported To Have Surrendered.

Dover, Del., March 31.—There was every indication that woman suffrage in the United States would be accomplished face before night when the lower house of the Delaware legislature convened today. The leaders of the antis were reported to have surrendered, insuring victory for the suffrage amendment. As the amendment already has a majority in its favor in the state senate and Governor Townsend has announced that he would sign the measure as soon as it was passed, the whole fight hinges upon the action of the house of representatives.

The final caucus of Republicans was held during the morning just before the house convened. This followed a conference attended by state Republican chairman T. Coleman Dupont, Governor Townsend, U. S. Senator Ball and senate leaders.

Sir Edward said that he did not believe that the recent murders in Ireland were committed by Irishmen but by irresponsible men from America. He continued:

"There is no alternative to a union of Ireland and the empire but separation. Great harm has been done by the introduction of paraphraseology in political controversies such as make the world safe for democracy."

FIRE DESTROYS FARM BUILDINGS WITH \$30,000 LOSS WEDNESDAY

Spreading from building to building, fire completely destroyed practically every building on the farm of Perry Dardig, four miles north of Trebein on the Valley road shortly before noon Wednesday morning. The estimated loss will amount to \$30,000.

Destroyed in the conflagration were two houses, one of them new and occupied by the Dardig family, the other an older house that was unoccupied, a barn with all its content of a loft of hay and a number of farm implements, a corn crib and 2,000 bushels of corn, a wood house, hen house, smoke house and combination garage and corn crib. The household goods and an automobile were saved and while it was impossible to know certainly, it was thought that all of the stock escaped the flames.

The fire started about 10:30 o'clock while men were burning out corn stalks in a field. The strong wind blowing carried sparks to a straw pile which was ignited and the fire communicated quickly to the barn, an old frame structure. From the barn the sparks driven by the wind set fire to the two houses and other buildings in the farm lot. So quickly did the flames spread that it was impossible to fight them with a bucket brigade but farmers who were attracted by the blaze assisted in removing practically all of the household goods and succeeded in saving the automobile from the garage.

The barn, which ignited first, burned down quickly and it was impossible to remove any of the contents. The loft was full of hay, and there were also a number of farm implements that were destroyed on the conflagration. A buggy and some harness was saved. The old house was one formerly occupied by the family and was not occupied at the time. The new house was an eight room frame structure with a slate roof. It was situated close to the barn and fire quickly communicated to it. The house collapsed at 11:30 o'clock, practically the last of the buildings to be destroyed.

In the meantime buildings in the vicinity were threatened by the sparks and burning shingles that were carried for hundreds of yards in the high winds. Three fires among the buildings on the Ralph Kendig farm across the road, resulted, but were quickly extinguished by use of a bucket brigade. The Kendig barn, a cow stable and an old house on the Kendig place were all on fire at different times and quickly service on the part of farmers with bucket brigades extinguished them with little damage, which a few hundred dollars will likely cover.

A call to the Xenia Fire Department for assistance in preventing further fires came from the Kendig home and Captain Mahannah drove the White engine to the scene leaving this city at 10:40 and arriving on the scene 35 minutes later.

The firemen found it impossible to save any of the Kendig buildings, should they catch from sparks again, however. On the arrival of the department the buildings on the Dardig farm were practically razed and no assistance could be rendered in that direction. The firemen were prepared, however, to pump water from the creek near by in case fire started in any of the Kendig buildings.

City Manager Kenyon Riddle and J. T. Charters, president of the City Commission accompanied the firemen to the scene on the fire truck. In the meantime four firemen were left at the engine house here in case of a local call although none came in.

ATTACKERS DRIVEN OFF BY FORCES OF DEFENDERS

London, March 31.—A three hour battle between an armed attacking force and British troops was reported from Skibbereen, Ireland, today. The military barracks near Skibbereen were heavily attacked but after three hours of fighting the attackers were driven off.

HOUSE TO TAKE UP RESOLUTION ON ENDING WAR

Declaration of Ending of State Of War Aimed At.

Washington, Mar. 31.—A resolution declaring the existence of a state of peace with Germany is to be introduced in the house today by Chairman Stephen G. Porter, of the house foreign affairs committee.

The present plans of the Republican leaders are to bring the resolution up for final action in the house Friday under a special rule giving it the right of way.

A hurried poll of the house taken by the house leaders showed that it will pass by a heavy majority. Many Democratic members have given a pledge of support for the resolution.

REPORT OF GENERAL UPRIISING DENIED BY GERMAN CHIEF

London, March 31.—Developments today in Germany brought forth no official confirmation of sensational reports circulated late Tuesday by the Exchange Telegraph from Paris and Berlin of a new communist uprising through the whole German nation. According to an Exchange Telegraph correspondent the socialists and bairbories had united "declaiming war upon the government."

The threat of a new general strike in Germany was reiterated today by workers and socialist factions, but there was no report of any further disorders outside of the Ruhr district where fighting has been in progress for ten days.

RECKLESS DRIVING CARRIES WORKHOUSE SENTENCE IN DAYTON

Frequent deaths and serious injuries due to reckless driving in Dayton, has lead to agitation, especially on the part of West Side citizens, which result in a new air-tight speed ordinance being drawn up for that city and a strenuous speed campaign inaugurated.

A clause containing a work house sentence will be incorporated in the new ordinance against speeding and reckless driving, which will be given first reading by the commission today. Officers with stop watches will be used to catch speeders, this method being thought more effective and less expensive than the hiring of extra patrolmen and automobiles.

One dollar a mile is charged speeders as a fine by the Municipal Judge and two speeders paid the new fine yesterday, one paying \$35 and the other \$28. The work house sentence on top of this fine it expects to do much to break up speeding in Dayton.

It is believed that the blaze started in the dressing rooms of the theater, William Gaylord, a photographer, asleep in his office on the second floor, was rescued by firemen.

FIRE RUINS SEARCHED FOR BODY OF MAN THOUGHT TO BE THERE

Cleveland, O., March 31.—The ruins of a fire which swept the Drew building housing the Star theater early this morning, are being searched today for the body of a man believed to have been burned to death. The property loss is estimated at \$50,000.

The man believed to have perished in the blaze entered the Star restaurant a short time before the blaze was discovered.

It is believed that the blaze started in the dressing rooms of the theater, William Gaylord, a photographer, asleep in his office on the second floor, was rescued by firemen.

ANXIETY IS FELT

Theat Of General Strike Causes Uneasiness Over Country.

Copenhagen, March 31.—Making their throat, labor leaders today called a general strike throughout Denmark as a result of King Christian's refusal to reinstate the old cabinet.

London, March 31.—Agitations for a Danish republic continued throughout the night in Copenhagen, accomplished by slight encounters between soldiers and the crowds, said an Exchange Telegraph dispatch from the Danish capital today.

The new Danish ministry headed by Premier Liche sat all night while crowds paraded the streets and republican agitators made speeches.

National anxiety prevails over the threat of the workers to call a general strike in protest against the dismissal of the Zahle cabinet.

The Central News correspondent at Copenhagen reports that the co-operative unionists have sent telegrams throughout Denmark calling a meeting of leaders this afternoon to consider plans for a nation wide strike. The socialists are said to be opposing a strike "in order to reinstate political frauds."

A movement has been started to conciliate the Danish political parties in an effort to avert the threatened strike.

UNITED STATES PROBLEMS INTEREST JR. WOMAN'S CLUB

Snug self satisfaction, and indifference of the American people, are among their chief political enemies. Also they are a serious drawback in the efforts to Americanize foreign born people.

These points were brought out by Mrs. B. R. McClellan and Mrs. Chas. P. Proudfit in papers read before the Junior Womans' Club which met Tuesday afternoon with Mrs. Charles Fisher.

Mrs. McClellan's theme was, "The Passing of the Political Boss and the Growing Power of the Voter." She pointed out the great fault of the average voter, in not considering the efficiency of the candidate for public office for whom he votes, and that of the other elector, who through indifference fails to go to the polls to exercise his right of franchise. Mrs. McClellan predicted that the new woman voter will not be swayed by political leaders, but will vote according to her convictions. She quoted

free from George Horace Lorimer, and Samuel Blythe.

Mrs. Proudfit dealt with her subject "Americanization," in a manner equally interesting as did Mrs. McClellan her theme. She added a unique feature, by giving characters to subjects in her papers, such as "Miss Americanization."

Mrs. Graham Bryson gave the musical part of the program, singing two lovely little Irish melodies: "To My Love," and "Doud's Better Ask Me."

The club will be entertained at its next fortnightly meeting by Mrs. Reed Madden.

Mr. and Mrs. Emerson Osman, of High street are announcing the birth of a daughter, Audry Eileen.

It is the wish of the post to secure as many charter members as possible for the auxiliary. Wives, mothers, sisters and daughters of members of Foody Post are eligible to membership.

At the time I began taking Tanlac," explained Mrs. Roach, "I had been suffering from indigestion, rheumatism and other troubles for nine years and could find nothing to help me. If I ventured to eat anything the least bit heavy I would bloat up with sour gas and almost smother. My heart would palpitate frightfully and when these spells came on me I was so dizzy and weak I could hardly stand up. I often had to stop and rest while doing my household work. I was badly constipated and hardly ever free of headache. I also suffered with rheumatism in my fingers and especially in cloudy, rainy or snowy weather my pain was almost unbearable. My kidneys and liver were out of order and I had the worst kind of pains in my back, legs and shoulders. I had no appetite and what little I did eat seemed to do me more harm than good, as I always suffered afterwards and had become so run-down, weak and miserable that I sometimes felt like life was hardly worth living.

"One day I read a testimonial for Tanlac that seemed so sincere that I decided to see if the medicine would help me. Well, the first bottle did me so much good that I got another, then another and so on until my troubles all disappeared. As I said, that was three years ago and I have been able to keep myself in good health ever since by taking a few doses of Tanlac now and then as I feel the need of it.

Tanlac has been the favorite medicine in my cabinet for three years," said Mrs. M. E. Roach, of 402 Clay street, Lynchburg, Virginia, in an interview, recently.

FAIRBANKS AND MARY

ARE CONGRATULATED

Los Angeles, Cal., March 31—From all parts of the western hemisphere hundreds of messages of congratulation were showered upon Douglas Fairbanks and his bride Mary Pickford, at their Beverly Hills home today, following the formal announcement of their secret wedding at Los Angeles Sunday night.

Among the telegraph notes of congratulation were messages from romantic shop girls and perhaps as equally romantic millionaires government officials and others of note.

But "Doug" and Mary remained in seclusion, joyously planning an extended honeymoon tour of Europe. They will leave Los Angeles May 19, sailing from New York City on the Cunard liner Royal George. At Plymouth, England, a new automobile purchased especially for the occasion will be waiting for them.

The honeymoon will include trips

through England, Denmark, Sweden, France and Italy, and will consume several months time.

The wedding of Fairbanks and Gladys Mary Smith Moore, as Miss Pickford was known in private life, unites two of the largest personal incomes in the United States, if not in the world. Both Fairbanks and the new Mrs. Fairbanks are rated as millionaires and their personal incomes are estimated in seven or eight figures. Great secrecy surrounded the wedding ceremony.

JEWISH PASSOVER BEGINS SATURDAY

On Saturday, April 3rd begins the celebration of the Jewish passover, Hebrew "Pessach," ending on the Saturday following. This day corresponds to the 14th day of the first lunar month, "Nisan" in the Hebrew calendar which was ordained to be celebrated to commemorate the liberation of the Israelites from Egyptian bondage through the leadership of Moses. Divine services will be conducted in all synagogues on the first and last day of the festival.

One of the features of this holiday is the exclusive use of the unleavened bread "Matzos," a custom strictly observed by all religious Jews.

WOMEN URGED TO ATTEND A. L. MEET THURSDAY

Women who wish to become charter members of Joseph P. CLEVELAND LANDLORDS FACE ARREST; ALLEGUE VIOLATION OF LAW

Cleveland, March 31.—Warrants for the arrest of more than 3,500 Cleveland landlords for alleged violation of the city tenement house ordinance by failing to obtain 1920 licenses will be issued within a few days. City License Commissioner Cukr announced today.

Other city officials were preparing to attack rent profiteering from four angles through legislation adopted by city council last night.

"There are approximately 10,000 tenement houses in the city," Cukr said. "Our records show only 6,200 licenses have been issued and fees paid."

As soon as the list of delinquents is completed, it will be submitted to the municipal prosecutors for issuance of warrants, he announced.

City council's plan of campaign against profiteering landlords includes:

"Naming of a committee to investigate rentals and prices."

"Asking Governor Cox to call a special session of the legislature to frame laws to limit rent charges."

"Arranging for a conference with Cuyahoga County legislative delegates to consider anti-profiteering laws."

"A meeting of heads of industrial concerns to consider loans to workers to build homes."

ST. BRIGID'S ATHLETES PREPARE FOR BASEBALL

With the basketball season in the doldrums, the St. Brigid's school athletes who put out a quintet this season that was defeated but once in thirteen starts, have turned their thoughts to baseball.

These lads are strong on the national game and have already organized for the coming diamond season with prospects of being able to hold their own with the best nines in this vicinity of their age and size. A tentative line-up prepared shows that Hendrickson and Gallagher will likely form the battery for the Meteors. The infield positions will be looked after by Leahy, shortstop; Neville, first base; Purdon, second; Gorham, third, with Owens, Cain and Brennan in the gardens.

The schedule has not been completed but it is likely that the locals will play off the Jid with the St. Mary's Marianos or the Oswegos of Dayton, at the Reserve park in this city, on April 18.

WOMAN DOWER HAS NARROW ESCAPE

Spectators held their breath for a moment Wednesday morning, when an automobile driven by Mrs. Blane Saphir, stopped on the traction track directly in front of the 10 o'clock outgoing Dayton and Xena car.

The car was stopped by Motorman Fitzwater within a few feet of the machine.

Mrs. Saphir killed the engine on the track, when she became confused after her machine had collided with a car standing at the curb, when she attempted to park her car in front of the Skidoo restaurant. She backed her machine, narrowly escaping another car, and killed the engine on the track.

After Whooping Cough—What?

This is No. 4 of a series of advertisements, prepared by a competent physician, explaining how certain diseases which attack the air passages—such as Pneumonia, Influenza, Whooping Cough, Measles or even a long continued Cold—often leave these organs in an inflamed, congested state, thus affording a favorable foothold for invading germs. And how Vick's Vapo-Rub may be of value in this condition.

Whooping cough is the "meanest" disease that childhood is heir to. While rarely fatal in itself, except to children under two years of age, still it hangs on so long the coughing paroxysms are so violent, preventing proper sleep and digestion—that when the disease does disappear it leaves the child weakened and run down. In addition the violent coughing racks and strains the air passages and after recovery this irritation frequently remains.

During this period of convalescence the child should be most carefully watched until full strength is restored and the air passages regain their normal tone. A prominent authority even goes so far as to say—"There is more criminal neglect in connection with whooping cough than with any other disease."

While the disease is active, Vick's Vapo-Rub usually helps to lessen the violence of the coughing, but it is during convalescence that Vick's is most valuable.

Because Vick's acts locally by stimulation thru the skin to

draw out the inflammation, attract the blood away from the congested spots and relieve the cough. In addition the medicinal ingredients of Vick's are vaporized by the body heat. These vapors are breathed in all night long thus bringing the medication to bear directly upon the inflamed areas.

Vicks should be rubbed in over the throat and chest until the skin is red—then spread on thickly and covered with hot flannel cloths. Leave the clothing loose around the neck and the bed clothes arranged in the form of a funnel so the vapors arising may be freely inhaled. If the cough is annoying swallow a small bit the size of a pea.

Children's digestions are delicate—easily disturbed by too much "dosing." Vick's, therefore, is particularly recommended, since it is externally applied and so can be used often and freely without the slightest harmful effects.

Samples to new users will be sent free on request to the Vick Chemical Company, 234 Broad Street, Greensboro, N. C.

After suffering for three weeks from the effects of serious burns received

KIDNAPED BOY HAD A THRILLING TIME

Has taken two bottles of Dreco and declares she is regaining her health very fast. Weight increased six pounds.

"I spent six weeks in a hospital, and underwent an operation to remove two tumors; had the best medical treatment that money could procure, but I did not seem to regain my health," writes Mrs. Clyde Stewart, of Route 7, Cambridge, O.

"I read about a Zanesville man who got such great relief from the new medicine, Dreco, so bought two bottles of it and started the treatment. Those two bottles of Dreco have done me more good than anything else I ever did. I have a good appetite now; sleep soundly; have gained six pounds in weight. Dreco has been such a help to me after these years of suffering that I ought to tell my experience so that it may lead some suffering person to use this grand medicine."

There are many cases on record where Dreco has helped sick and suffering persons after all means had been exhausted. While Dreco is not a "cure-all" by any means, it is a plain, common-sense remedy made from the juices of roots, herbs, barks and leaves which act on the vital organs, toning them up so that they perform their duties as Nature intends they should. That is why Dreco is so successful. Dreco acts on the stomach, liver, kidneys, bowels and purifies the blood.

All good druggists sell Dreco and it is highly recommended in this city by

To keep your motor running sweet and pretty, be it twin six or flivver, good old Columbus is the one and only bet.

No matter how rich you are, you can't buy better gasoline than Columbus. And if you're poor from paying income taxes, you can't afford to buy less miles per gallon than Columbus will give you.

when her clothing caught fire while she was playing in her home, George Jean, 18 months old daughter of Mr. and Mrs. George L. Read (Margaret North) of Springfield, died Wednesday morning.

The baby was left alone in a room by her mother for only a few moments. She thrust a whisk broom at a gas stove, and her clothes ignited from the burning stove. Her screams

attracted her mother, whose hands were severely burned while trying to extinguish the flames.

The little girl was a niece of John A. North of this city. Funeral services and burial will take place in Springfield Friday.

CAMBRIDGE LADY SPENT SIX WEEKS IN A HOSPITAL.

Was operated on for tumor; been treated by best physicians in county, but seemed no one understood her case.

Has taken two bottles of Dreco and declares she is regaining her health very fast. Weight increased six pounds.

"I spent six weeks in a hospital, and underwent an operation to remove two tumors; had the best medical treatment that money could procure, but I did not seem to regain my health," writes Mrs. Clyde Stewart, of Route 7, Cambridge, O.

"I read about a Zanesville man who got such great relief from the new medicine, Dreco, so bought two bottles of it and started the treatment. Those two bottles of Dreco have done me more good than anything else I ever did. I have a good appetite now; sleep soundly; have gained six pounds in weight. Dreco has been such a help to me after these years of suffering that I ought to tell my experience so that it may lead some suffering person to use this grand medicine."

There are many cases on record where Dreco has helped sick and suffering persons after all means had been exhausted. While Dreco is not a "cure-all" by any means, it is a plain, common-sense remedy made from the juices of roots, herbs, barks and leaves which act on the vital organs, toning them up so that they perform their duties as Nature intends they should. That is why Dreco is so successful. Dreco acts on the stomach, liver, kidneys, bowels and purifies the blood.

All good druggists sell Dreco and it is highly recommended in this city by

SETTLING WITH THE TURKS.

With an allied army in possession of Constantinople, the situation begins to clear up. The present occupation by a strong British army is described as "political," that is, it is meant to dominate the Turkish government. It is high time that such action was taken.

The proclamation issued in the name of the British, French and Italian high commissioners declares that "occupational is provisional," depending on the conduct of the Turkish government and people. It explains that "the Entente powers persist in their purpose not to deprive the Turks of Constantinople." The Turks are plainly warned, however, that if there are any further massacres or other violent manifestations, this decision will probably be modified. While disclaiming any intention to "destroy the sultan's authority," the Allies add significantly that they wish to strengthen that authority" in all places which shall remain under Ottoman administration."

It is the fervent wish of most of the civilized world that Constantinople shall cease forever to be one of those places. The Turks have given sufficient provocation a thousand times. Their recent crimes alone would justify their expulsion from Constantinople and their relegation to the interior of Asia Minor, where they belong.

There is more meaning in this allied occupation of the Turkish capital than the allied governments admit. The Turkish settlement, recently made without consulting the United States, is now admittedly open to revision, and this country has been invited to participate. Popular indignation in Great Britain and America has had its effect. President Wilson is said to reflect the American attitude toward the Turks. The way is now open to settle the Turkish problem once for all by kicking the Turks out of Europe altogether, and turning Constantinople over to Greece under a mandate from the League of Nations. Such a step would clinch one of the most vital victories of the big war, and go far to guarantee the future peace of Europe.

NO SEPARATE PEACE.

If the United States Senate passes a resolution declaring a separate peace with Germany, the people should arise and impeach every man who votes for such a measure. And the very soldiers who died to win this war might well rise from their graves to join the protest.

The people of this country do not want a separate peace with Germany. But there is nothing which Germany more dearly desires. It would mean that after all the bloodshed, all the destruction and agony which the war cost, Germany would emerge the winner. The weakening of the bond between the nations which were allied against her is the strength of Prussianism. To that end she has bent all her craft and used all her duplicity.

There can be no safety for the world without strong, harmonious action between the nations that fought to subdue Germany.

It is time the people of the United States demanded that now, without further delay, there shall be a harmonious adjustment of the disgraceful quarrel raging between the President and the Senate, and that these powerful and conspicuous forces set an example of harmony and unity for lack of which the world is running into chaos.

MAKING GUN SALE UNLAWFUL.

The Massachusetts legislature is considering a bill which, if passed, will make it unlawful to sell firearms to persons who are not licensed by the police to carry them. This is attacking the problem from the right direction. There are laws and ordinances in many states and cities which prohibit private citizens from carrying firearms unless licensed. But persons who want to defy the law continue to do so apparently with perfect freedom. It has been left in most places a simple enough matter to procure the desired revolver or other weapon from any dealer and no questions asked.

Why should there be dealers in firearms if only officers of the law are permitted to carry them? Or if there must be dealers, why are they allowed to sell guns to any purchaser with the price?

Making the sale of firearms to unlicensed or irresponsible persons a punishable offense will surely do much to check the carrying of them. Also it will check the many accidents which come from free and unrestricted possession of the dangerous weapons, and do away with a great many shootings which are equally fatal whether done deliberately or in the heat of anger.

Massachusetts should not be the only state passing such a wise law.

THE TEACHER.

THE teacher's is the noblest stunt a mortal can pursue; and yet today we see her hunt for something else to do. She loves her high, uplifting trade, and quits it with a sigh, but she can't live on what she's paid, and can't afford to die. For years she studies night and day, to qualify to teach; and we behold her on her way, and say she is a peach. We hand her nose-gays when they're cheap, and call her Buttercup, and say the blessed schoolmarm keeps our bulwarks right side up. Without her this enlightened age would sadly be bereft; she guards the priceless heritage our well known fathers left. We hand her taffy with a spade, but when she makes complaint about the measly wage she's paid, we sweat some blood and faint. We may confess to spendifthrift ways, hold miser greed a crime; but when the schoolmarm asks a raise, we're tightwads, every time. And so she's going from the school to seek some other trade, to carve her way with some new tool, a corkscrew or a spade. She cannot thrive on nosegays sweet, or flourish on hot air, for she must have a grune to eat, and decent rags to wear.

CHATTER

The inquisitive old lady standing beside the discharged but still uniformed soldier kept eyeing his red chevron persistently.

"What division does that represent?" she asked.

"That, ma'am," replied the ex-soldier, "represents the division between me and the United States army."

The small son of a well-known electrical engineer is more familiar with the appliances of modern civilization than with the small things of nature, and when visiting the country unhesitatingly picked up a hornet to more closely inspect its mechanism.

When his father hurried out to discover the cause of the commotion which immediately broke the peace of the summer day, the little lad was rudely sucking a thumb while tears streamed down his face.

"Why, what is the trouble, son?" he was asked.

"It was that bug," he managed to explain between sobs. "I think his wing is defective. I touched him and he wasn't insulated at all!"

A man who was wanted by the police had been photographed in six different positions and the pictures sent to the chief of police of a provincial town where it was thought likely the fugitive was in hiding. After the lapse of a few days the following reply reached headquarters:

"Sir: I duly received the portraits of the six miscreants whose capture is desired. I have arrested five of them and the sixth is under observation and will be secured shortly."

"Do you know anything about flirting?" asked Ethel.

"No," replied Jack sadly. "I thought I did, but when I tried it the girl married me."

HOME MADE RECIPE CATARRH AND COLD

Nonexpensive—Cut This Out.

Thousands are making this beneficial remedy at home and any one who has catarrh or a cold can do the same.

Ask your druggist for three quarters of an ounce of Mentholized Arcine and pour it into a pint bottle, then fill the bottle with water that has been boiled.

Gargle the throat as directed and snuff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passage and throat so clean and healthy that germs of flu or any other germs will have a hard time gaining a foothold.

RESTORED TO NORMAL
HEALTH BY BIO-FEREN

"I feel I owe you people a world of gratitude for the benefit I have received in using your wonderful remedy—Bio-feren Tablets, which have completely restored me to normal conditions," says Joseph E. Webb of Muncie, Indiana.

Bio-feren is without doubt the grandest and quickest remedy for nervous, run down, weak, anemic men and women ever offered direct through the druggists and is not at all expensive.

Take two after each meal and one at bed time, and after seven days take one after each meal and one at bed time until the supply is exhausted.

Then if you feel that any claim made in this special notice is untrue—if you are not in better health—if you do not feel ambitious, more vigorous and keen minded, yes, twice as much as you did before, the druggist who sold you the tablets will gladly hand you back just what you paid for them.

All druggists in this city and vicinity have a supply on hand, or can easily get it for you.

Seven a day for seven days—

Wonderful results.

MAKE RAIL SURVEY

Canton—Peter Witt, public utility expert, of Cleveland, has been engaged by the city council to make a survey of the property of the Northern Ohio Traction company for the purpose of suggesting improvements. He will receive \$3,000 for his work. A check in payment for his services has been given to the city by the traction company.

TROOPS RUSH FORWARD.

London, Mar. 31.—German government troops have begun pushing forward in the Ruhr district, according to a news agency dispatch from Berlin today, quoting the newspaper Abend. Another news agency dispatch declares disorders have broken out at Rochum, Dusseldorf, Stuttgart, Elberfeld and at other cities.

Is It Yours?

This Is The Birthday Of Arthur of Brittany March 31, 1187.

The name Arthur seems to have been a "hoodoo" name for the British royalty. No King Arthur has ever ruled England, the Arthur of the romantic legends having been a king in the hills of Wales. Most of the British princes of that name have been overtaken by some misfortune.

Prince Arthur of Brittany was the son of Geoffrey, who was a son of King Henry II. Arthur was nephew of Richard the Lion-Hearted, one of the most romantic figures in history, and his cruel brother John, who usurped the throne.

Geoffrey was killed in a tournament a few months before his son Arthur was born. Since Richard died in 1199, the throne of England belonged to Arthur, by right of succession. John who was a younger brother and who seized the throne while Richard was away on a crusade, now seized it again, and pretending friendliness towards the young Prince, tried to poison him. In Shakespeare's play, "King John," there is a very romantic account of the little Prince Arthur.

The French King sided with him, but in a battle against John, Arthur was captured and imprisoned. A few days after his imprisonment, he mysteriously disappeared, undoubtedly killed by his uncle John.

Do you know anything about flirting?" asked Ethel.

"No," replied Jack sadly. "I thought I did, but when I tried it the girl married me."

Cox has been gathering data it was said at his office and is assured that the law departments of many cities have been going into the subject studiously.

MAN ELECTROCUTED FOR MURDER OF COP

Columbus, O., March 31.—Vincent Damico was electrocuted early this morning for his part in the murder of Policeman George Werne at Akron, last summer.

Of the gangsters who for two years under the leadership of Rosario Borghese, terrorized Akron with their crimes Damico was the last to pay the penalty.

Damico maintained his stoical attitude to the last, spending the time in prayer with Father Kelly and Chapman Reed. He ate his last meal with apparent relish, afterward smoking and chatting with his guards.

This calm demeanor was still evident when he was led from the death cell to the chair.

Peter Caffarelli, who was convicted with Damico, now is serving a life sentence for his participation in the crime.

SURE SIGNS OF EYE STRAIN

Headache, Vertigo, Watering of the Eye, Glueing together of the Eyelid on awakening in the morning.

The headache is often replaced by an inflammation of the eyelids, especially in young and healthy persons who also have a little conjunctivitis with a feeling of tension or fullness in the eyes which may become real pain of a dull aching character, the eyeballs being very tender on pressure.

Sometimes there are vertigo and sickness, with dyspepsia, palpitation, and even difficulty in breathing. Sleeplessness is a very frequent symptom to the excessive flow of blood to the brain and in part to the low tone of the whole nervous system.

If you have any of the above symptoms, call on Mrs. Lingerfield for examination of eye, while she is in Xenia, Friday, March 19.

COX CALLS COLUMBUS ATTORNEYS TO DISCUSS RENTS AND HOUSING

Columbus, March 31.—Instead of calling a special session of the legislature forwth, Governor Cox has issued a call to city solicitors of Ohio to meet with him at his office at 1:30 Thursday in an effort to get at rent profiteering facts in the way of a general survey, with discussion as to remedy. He has asked Attorney General Price to be represented at the conference.

Many complaints have come to the governor, directly charging an excessive increase in rental prices, pyramidizing many times over. Included in the complaints are charges of transfers of tenement properties and apartments at high fictitious prices, to make basis for increased rental charges.

Cox has been gathering data it was said at his office and is assured that the law departments of many cities have been going into the subject studiously.

MAN ELECTROCUTED FOR MURDER OF COP

Columbus, O., March 31.—Vincent Damico was electrocuted early this morning for his part in the murder of Policeman George Werne at Akron, last summer.

Of the gangsters who for two years under the leadership of Rosario Borghese, terrorized Akron with their crimes Damico was the last to pay the penalty.

Damico maintained his stoical attitude to the last, spending the time in prayer with Father Kelly and Chaplain Reed. He ate his last meal with apparent relish, afterward smoking and chatting with his guards.

This calm demeanor was still evident when he was led from the death cell to the chair.

Peter Caffarelli, who was convicted with Damico, now is serving a life sentence for his participation in the crime.

BANKS OPEN EARLY.
Chicago, March 31.—Chicago banks probably will open at 8 a. m., this summer, instead of 9 o'clock, unless the city council passes the daylight saving ordinance, bankers announced today. Banks are two hours behind New York, as the result of the adoption of daylight time there, and bankers say business under this condition is impossible.

VOCATIONAL BOARD OVERLOOKS ITS BILLS IS CHARGE MADE

Washington, March 31.—Charges of delay, incompetency and misplacement of former service men in vocational training by the federal board of vocational education were made before the house education committee by Cornelius W. Wickersham representing the American Legion of New York.

Lack of personal contact between representatives of the board and former service men seeking training and the low disability rating given applicants, Wickersham said, have contributed to dissatisfaction.

Charles Danielson, counsellor for Columbia University, told the committee that tuition bills at the university for men taking vocational courses amounting to \$15,600, had not been paid by the board. This failure to pay he said, has resulted in a drain on the university's endowment fund.

The board also has failed to pay for textbooks used by students at Columbia, Alfred Hartog of New York testified, adding that an inefficient system under which the board operates had prevented payments.

EMPLOYER TURNS OVER PLANT TO 2 EMPLOYEES

Canton, March 31.—Declaring that he had sufficient money to enable his family and himself to live comfortably the remainder of their lives, Wm. Frankham, proprietor of the William Frankham Brass and Bronze Works, has practically given his business to two of his employees as a reward for their services.

Frankham has been engaged in the brass and bronze foundry for 57 years and for the past 29 years has conducted his present plant, building up a large business in this line.

"I have built up this business and made enough money so that my family and myself can live comfortably for the rest of our lives," he said today, "so I am turning over the business to two of my employees—C. L. Becker and George Sieber—who have been associated with me for years." The new firm was incorporated today for \$50,000.

BEAUTY CHATS

By EDNA KENT FORBES

IF YOU CAN'T GET AWAY
Last week I devoted one of the chats to suggestions for changing the home surroundings. If you cannot get away and feel that you must have a change, you can do wonders to your home with nothing more expensive than a few cans of paint. Last week I urged packing away little used pieces of furniture and ornaments, and putting up new pictures and cretonnes. I would like to have time to go into the details, as to why new objects to look at stimulate the mind and refresh the nerves. But as I haven't, I can only give a few further suggestions for making your home into a new place.

Paint will transform almost anything. If you have a dingy room with dark woodwork, Go over that woodwork with white paint, and see how much more cheerful and inspiring you have made the place. If you have some old furniture which is battered and cheap looking, give it one coat of flat paint and a second coat of enamel and see what a transformation it will effect.

I would not advise you to do the furniture in white, unless you are an unusually good painter, for white shows up all the flaws. Try French gray, canary yellow, roseada green, or a soft blue, and if you wish to do a little decoration on the furniture with some contrasting color, using cardboard stencils which can be purchased at any art store. With such colored furniture, the walls of the room would have to be in a plain and neutral color.

If you wish to transform your house with little energy and less expense, there are any number of inspiring books on the subject which you can get at any library.

WHAT IS "SPRING FEVER"?

Be Fair With Yourself. "Spring Fever" Is Not Just Mental Contrariness

LOOK TO YOUR BLOOD

Take Pepto-Mangan, That Famous Blood Tonic. Sold in Both Liquid and Tablet Form

Feel fit this Spring. Feel as fine as the weather. Don't drowsy and dose over your work, lose valuable time, or blame yourself for a condition that with many people is as inevitable as Spring itself.

Remember how in the old days they took sulphur and molasses? That was to clear up the blood. For in the Spring the blood is likely to be sluggish, weak, and clogged with poisons. It needs help.

Why be handicapped unnecessarily? Why not be vigorous and red-blooded, full of "pep" and enthusiasm? Pepto-Mangan is a blood tonic—a blood builder and purifier—that has become a standard in the past thirty years. Prescribed by physicians when people are run down and anemic.

Give the children Pepto-Mangan. They, perhaps, need it the most. To safeguard their health and because Spring days are important ones in the school year, "Spring Fever" remember, is real, not fancied and is usually due to sluggish, impure blood.

Your druggist has Pepto-Mangan in both liquid and tablet form, just as preferred. Equally effective. Make sure you get genuine Pepto-Mangan. Ask for "Gude's" and look for the full name, "Gude's Pepto-Mangan," on the package.

What is a good method for removing hair on the arms?

Will olive oil harm the eyes?

THANK YOU.

"Mushy" letters should not be written, because the writer too often regrets what he or she has said later.

Write friendly letters only, and tell the young man that you want friendly letters from him or you will give up the correspondence. Do not be afraid of losing him, because if he cares for you now, your rebuke will make him care all the more.

It is unwise to remove hair from the arms, because it comes back so thick and coarse. Try bleaching the hair with peroxide of hydrogen, which will make it very much less noticeable. If, however, this is not satisfactory, try the pumice-stone treatment, which has proved very beneficial in many cases.

Get an ordinary cake of pumice stone. This is not pumice soap, but the regular old-fashioned pumice stone. To remove the hair, rub the skin affected with the superfluous growth, and the pumice stone will wear the hair off. Be careful not to irritate the skin. In case the arms are made red by this treatment, use cold cream.

Be Fair With Yourself. "Spring Fever" Is Not Just Mental Contrariness

LOOK TO YOUR BLOOD

Take Pepto-Mangan, That Famous Blood Tonic. Sold in Both Liquid and Tablet Form

Feel fit this Spring. Feel as fine as the weather. Don't drowsie and doze over your work, lose valuable time, or tax yourself for a condition that with many people is as inevitable as Spring itself.

Remember how in the old days they took sulphur and molasses? That was to clear up the blood. For in the Spring the blood is likely to be sluggish, weak, and clogged with poisons. It needs help.

Why be handicapped unnecessarily? Why not be vigorous and red-blooded, ful of "pep" and enthusiasm?

Pepto-Mangan is a blood tonic—a blood builder and purifier—that has become a standard in the past thirty years. Prescribed by physicians when people are run down and anemic.

Give the children Pepto-Mangan. They, perhaps, need it the most. To safeguard their health and because Spring days are important ones in the school year, "Spring Fever," remember, is real, not fancied and is usually due to sluggish, impure blood.

Your druggist has Pepto-Mangan in both liquid and tablet form, just as preferred. Equally effective. Make sure you get genuine Pepto-Mangan. Ask for "Gude's Pepto-Mangan." Ask for "Gude's Pepto-Mangan." on the package.

Two Stages of Life Lydia E. Pinkham's Vegetable Compound Made Mrs. Fairburn Strong And Well.

Chattanooga, Tenn.—"I used Lydia Pinkham's Vegetable Compound before my baby came when I could no longer keep up. It strengthened my back and relieved me of the dropsical effect which often develops at such times. It helped me wonderfully. That was my first experience with the Vegetable Compound. Years afterwards I had the Change of Life and I scarcely ever had to go during the day and seldom any fainting spells. I am now (G) strong, can do all my housework perfectly and it is a comfort to be able to say to other women 'Take Lydia E. Pinkham's Vegetable Compound and be strong.' time to explain the constitution of the United States as the bulwark of the Republican form of government here, and referred to the powers of the court in this country.

"This is the Chamber of Commerce," said General Keifer. "Commerce, next to religious duty, is of the most importance in maintaining universal prosperity, and in promoting the welfare and happiness of people in organized society. It concerns the farmer, the manufacturer, the transporter and the consumer; it promotes and fosters industry, enterprise and ambition of all classes of people. It begins at our homes and extends by land and sea to all parts of the earth and promotes comfort and happiness. The constitution of the United States deals heroically with commercial matters.

"Christianity and civilization, have, so far, failed to put an end to war with all its barbarity, and yet, we must not despair, but labor, hope and pray. Isaiah's vision, recorded in the Holy Writ seven hundred and sixty years before the birth of Christ, that "nations shall beat their swords into plowshares and their spears into pruning hooks," and know war no more, will soon be realized.

"Existing conditions throughout the world call for higher duties and stern citizenship than ever before. Religious teaching, through the churches and general religious propaganda will do much to bring an end to war and establish a universal peace among the greatest nations.

"It is a mistake to assume that

bravery or heroism is alone confined to war or the battlefield. The victories of peace often demand more real manhood courage than those of war; and the captains of peace should be awarded the first and highest rank and honors. We are prone to look too lightly on plain citizenship, and to regard it as not requiring the constant discharge of important duties essential to the good order and peace of society and country.

"There is in general, too much timidity in asserting ourselves with the community in which we live, especially in matters of duty as citizens when pertaining to public order and true patriotism. I am not pleading for the recognition of a class of persons who are ready critics of those who are honestly endeavoring to do something to promote the welfare and success of their friends, or the general public. Those who act and do things are always subject to criticism, for they alone may fall into errors. Those only who through indolence, indisposition or incapacity never attempt anything, are free from making mistakes.

"The lesson of the world-war should inspire and embolden us to assert a more active citizenship and lead us to become propagandists of universal peace, thereby doing our duty toward our fellowmen, and to our country, and thus proving our patriotism as citizens of the greatest Republic on earth."

General Keifer closed with a number of personal reminiscences of Ab-

raham Lincoln, General Grant and other national and military figures of a half century ago, reciting many incidents that never have found their way into history.

The banquet was served at 6:30 by Mr. and Mrs. Jacob Kany and about one hundred members of the organization and their friends were present.

EAT LESS MEAT IF BACK HURTS

Take a glass of Salts to flush Kidneys
if Bladder bothers you—Drink
lots of water.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone;

makes a delightful effervescent lithia-

water drink which millions of men and

women take now and then to keep the

kidneys and urinary organs clean, thus

avoiding serious kidney disease.

CAUSES BIG STIR IN SCIENTIFIC WORLD

Albert Einstein

Albert Einstein, a member of the Academy of Science of Berlin and formerly physical science professor at Prague and Zurich, is the inaugurator of new doctrines in relativity founded on four dimensions, three of which were known, the fourth being the proper time and proper measure of each moving space or system of coordinates. His discoveries have caused a great sensation in the scientific world.

TESTED RECIPES.

Cherry Salad

—Drain one can of cherries. Fill the cavities with one-quarter cup of blanched almonds. Arrange on lettuce leaves and serve with cream mayonnaise dressing.

Cream Dressing

—One-fourth teaspoon of salt, one-half tablespoon of mustard, three-quarter tablespoon of sugar, three-quarter cup of cream, one-quarter cup of vinegar, one egg slightly beaten. Mix the dry ingredients, then the cream and lastly the vinegar, cool over boiling water, stirring constantly until the mixture thickens. Add to the salad just before serving.

Washington Pie

—Cream together one-third cup of butter substitute and one cup of sugar, add the yolks of two eggs and beat until light, sift one and one-third cups of flour, one-half teaspoon of salt, two and one-half teaspoons of baking powder together, one-half cup of milk, add the dry ingredients alternately with the milk and lastly add the well beaten whites of the eggs. Pour into well greased cake tins, bake about twenty-five minutes. Jam or jelly may be used between the layers; use like fig filling; sprinkle the top with powdered sugar.

Prune Pie

—Soak two cups of prunes in cold water for three hours (or over night). Cook in same water until tender; drain, cut in two, remove stones and cool.

Paste

—A pieplate with good, rich paste, scatter prunes over evenly.

Mix one tablespoon of flour, one-third cup of sugar, the juice and grated rind of one-half lemon and sprinkle over prunes. Put on top crust and bake in hot oven.

If the lemon rind is not liked, two or three cloves cooked with prunes makes the pie entirely different. A little butter improves but it is good without.

TASTY DESSERTS.

Gelatin Pie

—Bake rich crust, same as for lemon pie, having set your gelatin the night before (if necessary) same as usual, adding any kind of fresh or canned fruits. Turn gelatin into pie-pan same size crust was baked in and when set turn into baked crust and serve with whipped cream.

Prune Pie

—Soak two cups of prunes in cold water for three hours (or over night). Cook in same water until tender; drain, cut in two, remove stones and cool.

Paste

—A pieplate with good, rich

Fried Artichokes

—Get three good, fresh artichokes and cut off all outer leaves, leaving centers. Cut centers in slices about four slices out of each half; boil this for a few minutes until tender, then take some flour and have ready with a little salt and also have ready one well-beaten egg. Drain artichokes and dip them one by one, first in flour, then in egg.

Have ready frying pan hot with lard, and fry them until brown.

Potato Pancakes

—Two cups grated potato, two eggs, one-half teaspoon salt, one tablespoon flour and a few grains of pepper.

The potato should be peeled and kept in cold water over night drained and grated in the morning. Beat the eggs separately. Mix all ingredients, brown in thin cakes in butter. In winter serve with tomato or brown sauce.

THE WOMAN WHO LOVED--AND EARNED

BY JANE PHELPS
A MODERN STORY OF HOME AND BUSINESS

GERRY PONDERS HER PROBLEM

Chapter 91

I wondered if I had given Robert more than he could do successfully in urging him to trim the windows. It was almost a business in itself, as he had said, as well as being an art.

"If the window trimming bothers you at all, can't you do it after hours, until you get used to following my diagrams? Then I could come down and help you," I asked him.

"You would be too tired after selling hats all day," he told me. "I'm not selling hats now," I had not failed to notice the change in his tone, as he referred to my work.

"Well, if you are a mind to, I'll tell Mr. Burch that I will do the window late, after the others have gone."

"All right, I'll be down about six."

All day I thought of Robert. All day I accused myself because I had not found a way to help him before. After I finished my work, I picked up a late magazine and commenced to read a story. I read a few paragraphs when this sentence caught my thoughts and halted them:

"Business women make marriage an adjunct to business, instead of business an adjunct to marriage." Then it went on: "It isn't that men so object to the idea of the business woman, as that the women so obstruct their business, and make every

thought and action subservient to him. For single women this may not be a fault. It may even be a virtue. But for a married woman to hold this attitude toward business is fatal to happiness. Her husband feels that he is relegated to a minor position in time—if, indeed he does not go to pieces entirely."

I read this paragraph over and over.

Had I made Robert simply an adjunct to my business? And had my attitude really been fatal to our happiness? Was it I who was responsible for the change in him, in his deterioration?

It was a disturbing thought, and yet I could not put it away. I went back over our lives together. I could not think of one thing I had done without believing it was for the best, and not one action but I had considered Robert's good, as well as my own advancement. Yet I realized that I had done just exactly as that writer had said—had made everything subservient to my business even Robert's happiness which, of course also meant my own. For nearly two hours. When we finished, I was delighted. Sporting goods really lend themselves easily to decorative purposes.

"I guess of the Old Man will open his eyes when he sees what we have done," Robert said, as we went home tired, but satisfied.
